SOFTWARE DEVELOPMENT

Junior-year software developer working towards a bachelor of sciences degree in Computer Science at Case Western Reserve University. Looking to pursue my passion for design and programming in a summer internship, with a strong preference toward web development. Experienced with:

- Java, Java EE, Android
- C
- HTML, CSS
- Javascript, Dojo
- SQL
- Python
- Linux

EXPERIENCE

UrbanCode Inc., Cleveland, OH

Web Development Co-op

5/2012 – 12/2012

Worked on various components of the “Dev Ops” platform, UrbanCode’s continuous integration suite.

Key achievements:

- Added dozens of features to the build automation tool uBuild, some of which were pivotal in winning it large sales.
- Re-implemented large portions of UrbanCode’s security library, all-the-while becoming notorious for writing lots of tests. The security library now holds the UrbanCode record for code coverage at 86%.
- On uRelease, a release coordination tool designed for non-technical people, I became the most prolific implementer on the team. I also gained experience dealing with potential customers and giving demos. For the last three months of the coop, I was the largest committer (measured in lines and in points) in the company.

JoynMe Inc., San Francisco, CA

10/2012 – Present

Developer

Having an entire month to myself after my co-op, I decided to trade my time for equity at a small start-up in Menlo Park. Currently working on server backend, with a focus on improving performance.

Key achievements:

- Re-wrote most data access classes to use libraries instead of needless re-implementation, all-the-while making them faster.
- Implemented Maven builds and some basic continuous integration.
- Implemented several other miscellaneous features.

EDUCATION

Case Western Reserve University, Cleveland, OH

8/2010 - Present

Ranked 39th in the United States by U.S. News and Report

GPA: 3.3

Pursuing:

Bachelor of Science, Major in Computer Science

San Francisco University High School

8/2006 – 5/2010

Ranked 21st in the United States by the Wall Street Journal

Graduating GPA: 3.58
